

GoldX® KVM Switch

GX3403

4 Port Flash Upgradeable

The GoldX® 4 Port KVM Switch will allow you to increase your available workspace. This is due to the compact design, which ensures usefulness and practicality in almost any work environment, as you easily and efficiently maintain control over all of your computers

Such efficiency allows you to control up to 4 computers with one keyboard, mouse and monitor. You are able to quickly switch between computers by use of Hot-Key combinations without having to lift your hands off the keyboard. Included with this speed and efficiency is the ability to accommodate virtually all your application requirements with the GoldX® 4 Port KVM Switch supporting up to a 2048 x 1536 resolution.
