

# Ethernet

## SuperLooper™ Line

*Simple Cable Tester on a Key Chain!*

### Loopback Jack & Plug

ST034LT02-01-001

- ▶ Check cables for broken or shorted wires
- ▶ Plug the Loopback Jack & Plug and cable into any network device, if the connection is good, the link LED of your device will switch on
- ▶ Check wall jack to network switch connections without cable
- ▶ Plug the Loopback Jack & Plug into a wall jack; LED of associated port will light on your Hub indicating live jack
- ▶ Use the Smartronix Ethernet Analyzer and Loopback Jack & Plug to perform more complete testing of cables, jacks, and devices

*Reduce Clutter by Adapting Any Standard Cable!*

### Crossover Adapter

ST034LT02-02-001

- ▶ Convert any standard Ethernet cable to a Crossover cable
- ▶ Eliminates the need for carrying extra cables
- ▶ Network two computers together without a hub
- ▶ Great for starting a home network
- ▶ Handy and convenient for PC technicians and network specialists

*Entire SuperLooper™ Line Is Versatile!*

- ▶ Molded hybrid casing providing both male and female jacks
- ▶ Small, convenient, and economical for network technicians
- ▶ Easy access with keychain attachment
- ▶ Color coded for quick recognition
