

ESGP Features

- Easy installation for pre-existing holes
- Fits factory punched holes and field punched holes
- Provides 360° protection of plumbing, fire sprinkler piping/tubing, electrical and low-voltage cabling
- Grommet can be split to allow for installation on pre-existing tube or pipe
- Provides anti-rattle protection

The ESGP fits 1/2", 3/4" and 1" copper tube!
"Back-to-back" feature allows grommet to fit every metal stud hole.

Easy Installation Options

1. To install 1/2", 3/4" and 1" copper tube through a 1 1/32" round factory or field punched hole – snap in 1 ESGP.
2. To install 1/2", 3/4" or 1" copper tube through any odd shaped factory punched holes – either snap 2 ESGPs back to back and remove the tabs from one, or, snap 1 ESGP and 1 ESG1 back to back.

ERICO®

100 YEARS YOUNG

1903 - 2003

Easy Snap Grommet & Metal Stud Punch

ESG1 Features

- Snap one grommet into standard field punched hole or snap two together into any shape factory punched hole
- Provides 360° protection for pipe or cable
- NEC 300-4 compliant

MSP20 Features

- Easily punches holes in metal stud
- Cushioned handles mean less operator fatigue and more comfortable handling
- Innovative tool design has offset handles to allow punch to work in confined locations or near perpendicular walls
- Lightweight punch makes accurate location of holes easier
- Hardened steel components keep tool sharper longer
- Punches up to 20 gauge sheet metal
- Replacement cutter available
