

# USB-100

Cross Platform USB Extender

Extends any  
USB device up to  
330 feet away.

## Features

- Extends any USB device up to 330 feet away
- CAT-5 cable used for extension
- Saves space on your desktop
- Increases productivity
- Eliminates computer noise where you work
- Plug and play - installs in seconds
- For any computers with USB connection
- Extends any USB hub with multiple USB outputs
- No power supply required at the receiving end
- Supports 12.5 Mbs USB standard

## Includes

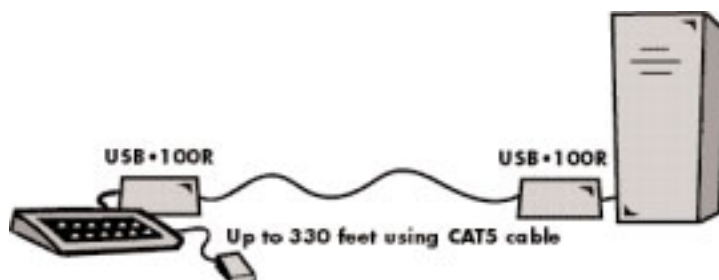

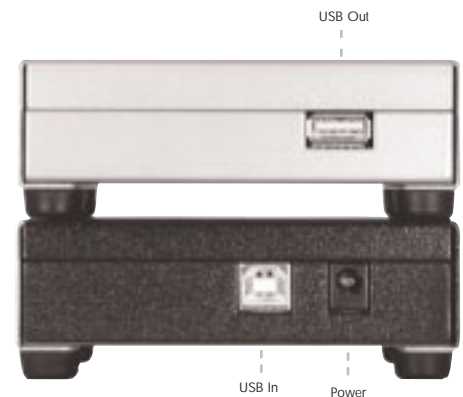

1. USB-100S
2. USB-100R
3. 6 foot USB cable
4. 15 volt power supply

The ex-tend-it USB-100 extends any USB device including keyboard and mouse up to 330 feet away from the location of your computer, eliminating the 17.5 feet distance limitation of USB. ex-tend-it USB-100 send and receive units use one CAT-5 cable for extension.

## How it works

The ex-tend-it USB-100 send unit is placed next to the computer. A USB cable connects the computer to the ex-tend-it USB-100 send unit. A category-5 (CAT-5) cable is used to link the USB-100S send unit to the USB-100R receive unit. The USB peripherals are connected to the USB-100R unit.

The ex-tend-it USB-100 can even be used to extend surveillance cameras for security purposes.

## Specifications:
